PROFILE SUMMARY

A Computer Science student passionate about software development and technology. Possess basic knowledge of programming and project development, currently learning Full Stack development with an interest in web technologies, data structures, and algorithms. Eager to improve problem-solving skills and gain practical experience in building software applications.

EDUCATION

B.E. in Computer Science and Engineering

K.S. Rangasamy College of Technology, Tiruchengode
CGPA: 8.61 2023 - 2027

Higher Secondary (Class XII)

St. Joseph Girl's Higher Secondary School, Madurai
Percentage: 88.17% 2023

SKILLS

- C, Java, Basic MySQL, HTML, CSS, JavaScript
- Vibe Coding, GenAI Tools, Prompt Engineering
- Tools: Lovable, ChatGPT, Copilot, Gemini, Google Colab, Antigravity
- Canva Designing
- Other Skills: Problem Solving, Logical Thinking, Communication

PROJECTS

- **DATA PULSE** GitHub
Developed a software based on semester calculations and consolidated report generator for semester exams using prompt engineering.
- **TRACEFINDER: DEVELOPMENT OF AN APPLICATION FOR FORENSIC ANALYSIS** GitHub
Developed a forensic analysis application to identify the source scanner of scanned documents by analyzing scanner-specific artifacts. Worked on image preprocessing, feature extraction, and machine learning-based classification to detect noise patterns and texture variations. The system supports document authentication, fraud detection, and forensic evidence verification.
- **AI FITNESS COACH AGENT (FitAura) – IBM AICTE** GitHub
Built an AI-based conversational fitness coach using IBM Watsonx AI and Granite LLM that generates personalized workout routines, nutrition suggestions, and motivational feedback. Implemented NLP-based interaction and intent recognition to provide real-time health guidance and improve user engagement.

CERTIFICATIONS

- Java Developer – Infosys Springboard
- NPTEL (Design & Implementation of Human-Computer Interfaces)
- NPTEL (Affective Computing [Elite])
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Typewriting in English (Junior, Senior)

INTERNSHIP

- **Pragati Internship (Cohort-3 Part 2) – Infosys Springboard** Certificate Link
Dec 2024 – Mar 2025
Completed a 12-week internship focused on industry-relevant skills, and practical learning in software development and professional growth.
- **IBM SkillsBuild Internship – Edunet Foundation** Certificate Link *Jul 2025 - Aug 2025*
Completed a 4-week internship focused on AI and IBM Cloud Technologies, gaining hands-on experience in project development under expert mentorship. Earned certification through the IBM SkillsBuild platform and developed a project using Agentic AI to build intelligent and automated systems.
- **Infosys Springboard Virtual Internship 6.0** Certificate Link *Aug 2025 - Oct 2025*
Completed a 8-week internship on TraceFinder: Development of an Application for Forensic Analysis. Worked on application development concepts related to digital forensics and data analysis. Gained practical exposure through mandatory assignments and real- world problem-solving tasks.
- **Nexyuga Innovations Pvt Ltd** Certificate Link *Sep 2025 – Dec 2025*
Successfully completed a 3-month offline internship in Web Development. Designed and developed complete web pages and components **from scratch**, converting requirements into functional and responsive user interfaces using modern web technologies.
